Chat Log from Zoom:

- **Laura Getts 31:37**

Thanks for the presentation, Buford. How does what you're doing fit into Colorado's vision (and pending DOE award) for the 4-state hydrogen hub?

- **Laura Getts 34:26**

A second question - what kind of utility rate structures are ideal for hydrogen production?

- **Tom Corlett38:48**

Thank you for the presentation and I have three questions: What is the time frame for Pueblo and what is the biggest challenge? And is this technology being developed in China?

- **Buford Barr - New Day Hydrogen47:54**

Please feel free to reach out to me at Buford@newdayhydrogen.com

- **Laura Getts53:46**

Thank you for the overview. A few questions: What level ASHRAE are these audits? Are they considering solar potential and savings? Does the City feel comfortable with it's capacity to implement recommended measures in a timely manner?

- **Tyler Surat01:08:46**

I have to exit a bit early. Appreciate the presentations and conversations.

- **Laura Getts01:11:44**

Thanks everyone. I have to sign off for another commitment now.
