TAX GUIDE

CREDIT CARDS FROM GOVERNMENTAL ORGANIZATIONS

The Pueblo Municipal Code exempts from sales and lodger's tax all sales to the United States government, to the State, its departments and institutions, and the political subdivisions thereof when purchased in their governmental capacities. For a governmental entity to take advantage of this tax exemption, the billing must be made directly to the governmental entity, and the payment must be received directly from the governmental entity. In some cases, the governmental entity may use a credit card to pay for a purchase.

If the credit card is directly billed to, and directly paid by the governmental entity, the transaction is **exempt** from tax.

If the credit card is in the name of the governmental entity and the individual, with the individual being responsible for the payment of the credit card, the transaction is **not exempt** from tax. Purchases charged to a personal credit card by a governmental employee, even if they are reimbursed by the governmental entity, are **not exempt**.

The criteria to identify whether or not the government credit card is billed directly to a governmental entity (and therefore exempt) are described below.

FEDERAL CREDIT CARDS

The federal government's credit card program is called "GSA SmartPay". There are currently five different categories of these credit cards: Fleet cards, Purchase cards, Travel cards, Tax Advantage cards and Integrated cards.

Fleet Cards. Fleet cards may be a Visa, MasterCard, Voyager, or Wright Express, will have the word "Fleet" on the front with a predominantly green background, will have a picture of a road, and will be identified as being "FOR OFFICIAL GOVERNMENT USE ONLY." These cards are billed directly to the governmental entity, so purchases made using Fleet Cards are **exempt** from City of Pueblo tax.

Purchase Cards. Purchase cards may be either a VISA or MasterCard, will have the word "Purchase" on the front with a predominantly red background, will have a picture of an eagle, and will be identified as being "FOR OFFICIAL GOVERNMENT USE ONLY." These cards are billed directly to the governmental entity, so purchases made using Purchase Cards are **exempt** from City of Pueblo tax.

Travel Cards. Travel cards may be either a VISA or MasterCard, will have the word "Travel" on the front with a predominantly blue background, will have a picture of an airplane, and will be identified as being "FOR OFFICIAL GOVERNMENT USE ONLY." For these cards, the 6th digit on the card must be examined.

If the 6th digit is a 0, 6, 7, 8, or 9, the card is billed directly to the governmental agency, so purchases made using these cards are **exempt** from City of Pueblo tax. If the 6th digit is a 1, 2, 3, or 4, the card is billed individually, so the purchases made using these cards are **not exempt** from City of Pueblo tax.

Tax Advantage Cards. Tax Advantage cards may be either a VISA or MasterCard, will have the words “Tax Advantage” on the front with a predominantly silver background, will have a picture of a hotel and car, and will be identified as being “FOR OFFICIAL GOVERNMENT USE ONLY.” All Tax Advantage cards will have 5 as the 6th digit.

All charges for rental cars and lodging will automatically be billed directly to the governmental entity, so purchases of rental cars and lodging using these cards are **exempt** from City of Pueblo tax. All other charges on these cards are billed individually and are **not exempt** from City of Pueblo tax.

Integrated Cards. Integrated cards may be a VISA, MasterCard, Voyager, or Wright Express, will have the word “Integrated” on the front with a predominantly gold background, will have a background picture of a globe, and will be identified as being “FOR OFFICIAL GOVERNMENT USE ONLY.” These cards are billed directly to the governmental entity, so purchases made using Integrated Cards are **exempt** from City of Pueblo tax.

Examples of the types of Federal Credit Cards (Background pictures only)

Fleet Card – Not Taxable

Purchase Card – Not Taxable

Travel Card – May or may not be taxable

Tax Advantage Card – May or may not be taxable

Integrated Card – Not Taxable

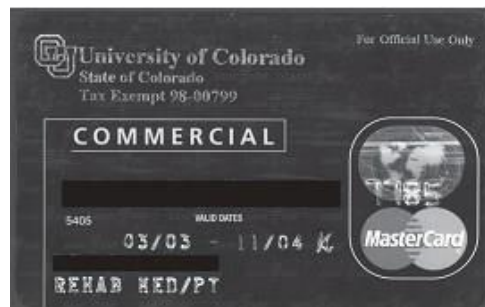

These card images were obtained directly from <https://smartpay.gsa.gov> where you can find out more information about the GSA Smartpay cards program. The picture, color and title in the colored section examples denotes what type of card it may be and the 6th digit examination is necessary for some cards to distinguish government direct pay vs. individual billing.

STATE OF COLORADO CREDIT CARDS

The State of Colorado uses three different categories of credit cards.

Procurement Cards. Procurement cards display the words “State of Colorado” and “For Official Use Only”. These cards show the agency’s tax exemption number that begins with “98”, followed by five digits. Purchases made on these cards are directly billed to the State agency, so are **exempt** from City of Pueblo tax.

US Bank VISA Event Cards. Event cards are primarily used for meetings. These cards display the words “Tax Exempt” followed by the agency’s tax exemption number (“98” followed by five digits) and the employee’s name. These cards are billed directly to the State agency so purchases made using these cards are **exempt** from City of Pueblo tax.

Travel Cards. Travel cards display only the words “State of Colorado” and the employee’s name; there is no tax exemption number. Purchases made on these cards are billed to the individual, so are **not exempt** from City of Pueblo tax.

COLORADO LOCAL GOVERNMENT CREDIT CARDS

Some local governments in Colorado issue credit cards in both the government employee and agency’s name.

Purchase cards display the name of the government entity and the words “Purchasing Card.” Purchase cards are billed directly to the government entity, so purchases made using these cards are **exempt** from

City of Pueblo tax. All other local government credit cards are billed to individuals, so are **not exempt** from City of Pueblo tax.

OUT OF STATE LOCAL AND STATE GOVERNMENT CREDIT CARDS

Local and state governmental entities from outside the State of Colorado **can not** make purchases exempt from City of Pueblo tax under the same rules as Colorado local government entities.

STATE DEPARTMENT ISSUED FOREIGN AND DIPLOMATIC TAX EXEMPTION

Purchases made by foreign diplomats and agents of foreign governments may be exempt from City of Pueblo tax **if** they present special tax exemption cards. These cards, issued by the U.S. Department of State, bear the name and photograph of the authorized bearer. The cards are either “Mission Tax Exemption” cards, or “Personal Tax Exemption” cards, and this is stated on the front of the card. These cards are for identification and are not a method of payment.

Mission Tax Exemption cards are issued to designated representative of embassies, consulates, and international organizations for use when making official mission purchases. These cards are only valid for official mission purchases and all purchases must be made in the name of the mission and paid for by either a mission check or credit card. Cash, credit cards or personal checks in the name of the bearer of the mission tax exemption card cannot be used as payment. Cards may be used by other mission employees for official purchases.

Personal Tax Exemption cards are issued for the sole benefit of the individual identified and pictured on the card. These cards are non-transferable. Payments by cash, credit cards or personal checks in the name of the bearer of the personal tax exemption card are acceptable for exempt purchases using this card.

Both types of Diplomatic Tax Exemption cards include animal symbols and narrative indicating the specific type of tax exemption of the cardholder and all restrictions on tax exemption (i.e. “Exempt from taxes imposed on purchases over \$300; not valid at hotels”). These cards should be examined carefully to ensure that the purchase falls within the tax exemption granted. Please visit www.state.gov/ofm/tax for further information.

BURDEN OF PROOF

Vendors must maintain documentation to verify whether a transaction is exempt. Typically, this would be a completed, signed copy of the “Standard Municipal Home Rule Affidavit of Exempt Sale” and a copy of the diplomatic exemption card. **At no time should a vendor ever take a photo copy of the Government Credit Card or write down any numbers not specifically requested on the “Standard Municipal Home Rule Affidavit of Exempt Sale.”**

If the vendor and the purchaser disagree on the application of the tax, the vendor must collect the tax. The vendor should give the purchaser a receipt showing the taxes collected. The purchaser then has 60 days to file a claim for refund directly with the City for recovery of the tax. The claim for refund form can be obtained from the Treasury web site.

EXAMPLES:

1. Sue, a government official with the Governor’s Office of the State of Colorado, traveled from Denver to Pueblo to attend a US Governor’s conference in downtown Pueblo. Traveling with Sue was Jane, an outside consultant from Denver who has contracted with the State of Colorado to assist the Governor’s Office with special projects. Sue and Jane stayed at the same downtown hotel for the week-long conference. When checking out of the hotel, Sue paid for her bill with her State of Colorado

purchase card and the hotel properly did not charge sales or lodger's tax on her bill.

Jane, on the other hand, being a private contractor for the State of Colorado, paid her bill with her own VISA credit card. Jane explained to the hotel clerk that her travels were on behalf of the State of Colorado and would be reimbursed – therefore her bill should also be exempt from lodger's tax. Don, the hotel clerk, had recently attended a City of Pueblo tax seminar and recalled this topic being addressed. He remembered the presenter explaining that if the credit card used is not directly billed to and paid for by the tax-exempt entity, the exemption would be disallowed. Knowing this, the hotel properly included the sales and lodger's tax on Jane's bill.

2. Sandy, a government official with the Governor's Office of the State of Texas, traveled from Austin to Pueblo to attend a US Governor's conference in downtown Pueblo. Sandy stayed at a downtown hotel for the week-long conference. When checking out of the hotel, Sandy paid for her bill with her State of Texas purchase card and the hotel properly did charge sales and lodger's tax on her bill as the form of payment is from a state or local jurisdiction outside the State of Colorado.

3. Senator Jones traveled to Pueblo for a town-hall meeting with local constituents. At the rental car counter he produced his VISA travel card and noted his tax exempt status to the agent at the counter. The agent compared the senator's travel card to the exemption information he had and noted that the 6th digit on the card was an "8," indicating direct billing to the Federal Government. Senator Jones was properly allowed to rent his vehicle tax-free.

4. Dr. Thornton Kensington, a diplomat from Great Britain, traveled to Pueblo on behalf of his embassy for a conference. While checking in at the registration desk upon arrival, he presented his Mission Tax Exemption card to the clerk and requested confirmation that he would not be charged any sales or lodger's tax on either his room or on other purchases made on hotel property including food and beverages. This card, issued by the U.S. Department of State, included his name and photo on the front, along with the words "Exempt from all Sales Tax." The hotel rightfully honored his tax-exempt status and did not apply any sales or lodger's taxes to either his room bill or his purchases at the various hotel restaurants and gift shop.
