

CITY OF PUEBLO, CO

Background:

The City of Pueblo has been a legacy Panasonic account. On 9/23/16 HP SLED Paul Galdean engaged the City IT Director Lori Pinz about Getac Rugged Solutions for the upcoming refresh for the Police and Fire Department. After a rigorous two-phase field pilot program with Dell, Panasonic and Getac – we were awarded Police / Fire and Public Works 10/31/17

Region: Southern Colorado

Vertical: Police / Fire and Public Works

Website: <https://www.pueblo.us/>

Product: Custom V110G3 + Bar Code Readers

Delivery: 3/21/18

Quantity: 160+

Application Scenario:

Police are using the V110G3 as MDT and mobile computing solution. Fire is using the V110G3 as MDT / EPCR and mobile computing. Public works is using the V110G3 for GIS mapping / MDT and mobile computing

Special Highlights:

Pueblo uses a V110 with special barcode reader for reading drivers' licenses for the purposes of Traffic Citations and Emergency Patient Care Records

Why Getac:

Getac was selected based on the performance of the units in the field and the ability to integrate the barcode reader. However, the ultimate deciding factor was the customer service received during the process.
