

**REQUEST FOR ADJUSTMENT ON CITY OF PUEBLO SEWER CONSUMPTION FEES**

**CITY OF PUEBLO SEWER CHARGES:**

The **Sewer Base Fee** is determined by the size of your water meter (i.e.  $\frac{3}{4}$ " = \$23.18 per month, 1" = \$27.57 per month for 2021). This fee will remain constant throughout the year and cannot be adjusted.

The **Sewer Consumption Fee** is calculated by using the average of water consumed during the two non-irrigating months that begin with your December water meter reading and end with your February meter reading. The **January and February** bill will be based off actual consumption, **March through December** will be based off the average of these two months.

If you have a **substantial** event during the first two months of the year, that you believe could constitute an adjustment to the monthly sewer consumption fee (i.e. water leak, running toilet, significant irrigation) then please:

- 1) Go to [www.pueblowater.org](http://www.pueblowater.org), select "Customer Service", follow the "request an adjustment" link.

OR

- 2) Fill out the information below and mail to 1300 S. Queens Ave, Pueblo, Colorado 81001

DETAIL OF SIGNIFICANT EVENT: \_\_\_\_\_

\_\_\_\_\_

Please note, this does not automatically grant you an adjustment. Your consumption will be compared to your previous years' consumption and a determination will then be made.
