

## MEASUREMENT AND CALCULATED QUANTITY ACCURACY

All quantities for payment shall be field measured (where applicable), calculated and rounded to the degree of accuracy given below.

UNIT	ACCURACY
Lump Sum (%)	X.
Each	X.
Linear Foot	X.X
Square Feet	X.X
Square Yard	X.X
Cubic Yard	X.X
Gallon	X.
Ton	X.X
Acre	X.X

Rounding of numbers shall be as follows:

0.1 thru 0.4 - round down to zero

0.5 - round up if it makes the whole number even, down if the whole number is even

0.6 thru 0.9 - round up to next whole number

Examples: 93.3 rounds to 93

93.5 rounds to 94

94.5 rounds to 94

93.7 rounds to 94
